6/8/68

Dear Matt,

If you can find the time, there are a few pictures I'd appreciate your printing. I sent two negatives by mistake to Louis Lyon and I left a few positive slides there last time. I have written you about the negatives, which are two of the pictures of the man in whom I have recently developed interest. I asked you to see if you might be able to copy a third and whether you might locate others. The positives are of a man I interviewed and two, I think, pictures I took of Sciambra when he was here. I had intended giving a print of each of these to him.

Of the man I interviewed, I'd like a print and I think perhaps it would be appropriate to give Lou a copy for their files for they may have some interest. Of the negatives I had made from the pictures I had,, while again I am confident Lou would appreciate prints of each, I also want to send some to associates on the West Coast for them to do some checking for me.

If and when you expect to be near the office, would you show this to Lou so he will know you are doing this for me and will give you the film?

Following our last phone conversation, I had a call yesterday from my friend who you called. It is possible you now know more of the health situation than I. I understand the cast may come off next Tuesday and the decision on whether or not surgery will be desireable or required may be reached then. That friend reports having some things I'd very much like copies of and the inability to have them made, including a tape recording. I sure would like these copies, including the tape, if it is possible for you to make them and agreeable on that end. If there are any misgivings about letting you or anyone but me have these things, that can reasonable be overcome by a package being made on the spot ans sealed by my friend with a signet I will be known to recognize and can return intact. The package can then be sent me registered, which should assure its inviolate arrival here. If this is possible and agreed to, I can be phoned from that house and we can have a three-way conversation.

Best to you all. I wish I were there now. When I have cash
